Summary

As an aspiring web developer with a passion for user interface design, I have experience working with clients to build their desired projects. I am highly motivated to continue learning new skills and technologies in the web development and tech industries. I have developed strong collaboration, communication, and problem-solving skills through my internship experience with Addcomposite, and I am eager to apply these skills to contribute to and grow with a new team. I am particularly interested in learning C#, .NET, and honing my abilities in software testing and debugging.
